NUMBER 38,34

Raymond Pioneer Passes Away In Cardston

Word was received by members of the Jas. S. Anderson family Sunday of the passing in Cardston that morning of a well known and highly respected pioneer lady of Raymond who lived here from shortly after the turn of the century until 1915.

Born in Scotland in 1832, deceased with her parents emigrated to Utah with other L.D.S. Church members, and after her marriage to John F. Anderson in Utah, she came to Canada about 1902 or 1903 with her husband and children and settled in Raymond. While here they were very active in church work, she having served as Stake Relief Secretary amongst other positions and her husband serving as Bishop of the Raymond Ward for a number of years.

When work started on the Cardston Temple in 1915 the family move there, and Bishop Anderson, being a stone mason found employment on the Cardston Temple during the years of its construction. When the Temple was finished Brother and Sister Anderson were called amongst the first group of officers and for twenty years they were none more devoted to this work than these fine people, deceased assisting as Matron in the Temple when the Matron herself was unable to attend. Solicitous for everyone's comfort and good, she was a real mother to the thousands who have been ministered to by her during her life and she will be missed by a wide circle of friends, and with them we extend our sympathies to the sorrowing husband and children and raise a prayer of thanks to heaven for the life of this fine woman.

She is survived by her husband, one son John F. Jr., of Lethbridge and two daughters, Mrs. S.O. Low of Cardston and Mrs. L. K. Woolf now living in Utah. The funeral was held in Cardston Wednesday afternoon and quite a large number from here attended.

RAYMOND LIONS MEET

Another interesting meeting of the Raymond Lions Club was held in the Sugar Bowl Monday December 6th with Pres. J. G. Snow in the chair.

The meeting opened with the singing of "O'Canada" and prayer was offered by Lion D. E. Wilde.

Pres. Snow thanked all the members for their fine support at the Carnival. Lion Isaac M. T. Kimo read a report on the Carnival which showed that all when had taken part had been repaid for their efforts.

A vote of thanks was tendered to the Carnival Committee also the Ladies of the town who had helped and the general public for its support.

Community singing was then enjoyed by the members under the baton of Lion J. Strong.

The meeting closed by singing the National Anthem after which the members retired to the Powling Alley where Lion Fritz Dahl (Chairman of the Entertainment Committee) had rented the Alleys for the evening.

A directors meeting was called immediately after the regular meeting in order to make arrangements for the Charter Night which will be held in the near future.

CBC OVERSEAS

A. E. Powley is CBC's news chief in London. In association with fourteen other Canadians, English and French speaking, he is a part of the organization which is charged with bringing the news of Canadian men and women on active service to the radio listeners of Canada. Mr. Powley was former head of the CBC central newsroom, at Toronto but he is no stranger to the British capital; he was born here in 1901.

NEWS NOTES

Mr. and Mrs. J. LeRoy Anderson and Mrs. J. H. Walker were Cardston visitors at the Temple on Wednesday.

Mr. and Mrs. Sidney Smith are leaving for the mission field the first week in January and will have headquarters again

Our public school looks pretty good after the work done to the foundation. There is still a little left to take care of, but the building is now perfectly safe.

It won't be long now until Christmas 1913 will be a memory. However Christmas always does leave a very pleasant memory.

Paul Fairbanks who was called to Calgary two weeks ago to report to military officials was medically unfit for service and is home again and back at his job.

Church Pageants Well Attended

Outlined by the General Sunday School Board, and presented under the supervision of the Ward Sunday Schools, an interesting and educational pageant was presented in both Raymond wards Sunday evening, showing the Book of Mormon history and the delivery of the Book of Mormon plates to the Prophet Joseph Smith.

Culminating considerable organization work and assembling of costumes, and much make up during the presentation, the presentation went off smoothly and to the accompaniment of improvised thunder and lightning. Characters while no, talking delivered a forceful lesson in their acting, as the readers kept the audience acquainted with the details of the story.

In the 2nd Ward Mrs. Elizabeth King and Miss Eva Palmer had charge of the pageant, J. W. Evans and L.H. Jacobs were readers and Mrs. Lloyd Heppler was make-up artist, while in the First Ward the presentation was in charge of E.E. Jensen & Fritz Dahl, and Mrs. L. Brandley and E. E. Jensen were the readers with Mrs. Hudson in charge of the make-up. The houses in both wards were crowded to the doors.

Ward Supper Next Wednesday

Hear ye hear ye. The second ward are sponsoring a ward supper and dance in the hall next Wednesday, 75c for adults. The feeding will commence at 6 p.m. Everyone in town is not only invited, but is expected to come fast time Wednesday until on sale about as soon as this breakfast time Thursday and appears in print. Support this supper. Note 15c supper and enjoy the evening that this is Wednesday so it with your friends.

Priorities Granted For Hospital

The Municipal Hospital Committee received word the first of the week that priorities had been granted on materials for construction of the building, and the Committee is busy now on details of the building and preparing to start work. This is good news to everyone and makes us all hopeful that before another winter comes we will have a hospital of our own ready for use.

Meetings have been held with certain sections of the district where for geographical reasons the property owners have petitioned out of the district, and so far as is known every case has been settled satisfactorily to all. Another meeting is called for next week.

Flu is having a real inning now. Many people have been forced to bed with it, and our local M.L.A., Jas H. Walker is amongst its victims.

Advice to those affected with flu is rest, plenty to eat and warmth. Nothing hard about that cure, and the rest part would appeal especially to yours truly.

School Medal Comes To Raymond Student

JULIEN DEGRANDE

Private Julien Madeline DeGrande, daughter of Mr. and Mrs. Adolf De Grande, of Raymond and Edmonton, recently enlisted in the Canadian Women's Army corps and is now completing her basic training at No. 2 C.W.A.C. Basic Training Centre, Vermilion. She hopes to become a transport driver.

WEDDING BELLS

WRIGHT — PIEGRASS

Miss Marie, daughter of Mr. and Mrs. Fred Piegrass, and Lionel, son of Mr. and Mrs. Fred Wright of Beaver, were united in marriage at the Cardston Temple last week with Pres. Wood officiating. Parents and other relatives of both young people were present to witness the ceremony and wish the newlyweds joy and happiness in their journey through life.

The young couple enjoyed a brief honeymoon, and then the bride went back to her training in the army service and the groom is residing on the farm of his parents at Beaver. We extend our heartiest congratulations to the young people.

NEWS NOTES

Dean Haggie passed his medical examinations and is now in training in the military service.

E. E. Jensen, Manager of the Treasury branch was ill the first of this week with flu which settled in the muscles of his shoulders and back.

Two officials of the combined Recruiting Staff for Army and Air Force were at the Hotel in Raymond Thursday interviewing possible recruits.

Flt. Sergt. Mark Dahl, stationed at Rivers, Man., is home on leave and will remain until the day after Christmas. Mark is looking fine and says he is glad to be home again for a few days.

The Stake Presidency and Elder Clyde Spencer, Stake Mission President were in Stirling Sunday morning re-organizing the Stake Mission work there, and in the afternoon a meeting was held with missionaries here who were given instructions and assigned their field of labor.

Mr. and Mrs. Ira McBride were amongst the guests at a birthday dinner Sunday in honor of C. D. Peterson at Wellington. Twenty guests, including nearly all the children were present and enjoyed a wonderful afternoon. The guest of honor 66, is vigorous as a young man and we extend our congratulations and best wishes.

For the third year straight the Governor-General's medal for all around efficiency in school work has come to Raymond. This medal is given, one in each province for the scholar making the best record in all school work, and it is a distinct tribute to Raymond that for three years running it should come to Raymond.

In 1940-41 it was won by Barbara Redd in 59-40, by Stephen Wood in 14-42 and this year 42-43 by Mitsiki Sada one of our local Japanese students. Our congratulations to the winner and also to teachers who have assisted in bringing this distinction to Raymond.

Doctors In Partnership

Doctors J. S. Madaill and J. Harris Walker have formed a partnership and are now working together, maintaining Dr. Madaill's present offices. We congratulate these two men on their union and are sure that Raymond and district people will support them 100 p.c. as all have perfect confidence in them.

Raymond people can also consider themselves fortunate in having the services of two such fine doctors, and we almost imagine we could hear Dr. Madaill's sigh of gratitude as he thought of a few mornings each week when he wouldn't have to drive to Lethbridge and return and do a full day's work here.

NEWS NOTES

If you can see the other man's viewpoint your arguments are settled before they begin.

Word was received here Thursday that Fritz Gehmlich of Pictou Butte is in Hospital at Lethbridge, having been operated on for appendicitis.

A large number of Raymond people were in Cardston Wednesday for the funeral of the late Mrs. John F. Anderson. Elders H. S. Allen and J. W. Evans were amongst the speakers, and Jos. McLean sang a vocal solo.

Low Minor, 67, of Magrath, father of Mrs. Moses Fromm passed away unexpectedly Tuesday of this week. The funeral is being held today in Magrath. We extend our sympathies to Ruth and other members of the family in their sorrow.

Major Gairnor and Flight James were here Thursday on recruiting business. They visited the school in the morning where they exhibited the film "Target for Tonight," and after lunch here they journeyed to Magrath to spend the afternoon there.

C. W. Card Passes In California

Word was received last night of the death of C. W. Card 82, at Long Beach, father of Stewart and Grant. Mr. Card lived for a number of years in Raymond and is well known here. Stewart has been at his fathers bedside for the past two weeks.

8th Army Breaks Through At Gabes

Gabes Gap, one of the land marks on the 8th Army's victorious drive through Tunisia, Allied armour broke through enemy defences here, inflicted heavy losses and went on to smash the triumph of Wadi Akarit.

Picture shows: Some of the hundreds of Axis prisoners taken in the early phases of the 8th Army battle arriving in Akarit.

WHERE LIES THE TRUTH

Tonight, John H. Blackmore, M. P. Dominion Leader of the New Democracy party is speaking in the Opera House. His party has formulated a program for state government, based on the government control of currency, which they claim will be a solution to all of the financial ills of the nation. With this are plans for the rehabilitation of soldiers, and the thousand and one other things that a government has to deal with.

During the past few months the C.C.F. party has been active across our great Dominion with their program. They too promise a solution to all our ills based on the theory that "government control" of all natural industries, primary products and business is the logical solution to our troubles. In recent elections throughout Canada

the C.C.F. has made a number of strategic wins. Meetings have been held all around us and we presume that one is in the offing very soon for Raymond.

While not making much noise, the old line parties in their usual adroit manner are promising the voters of the nation anything they ask if it will mean the winning of the election. It is no wonder that the average voter is befuddled and undecided how to vote when he hears so much, most of which he cannot understand and nearly all of which is just so many election promises.

One might well ask "Where is the truth?" "How can one tell which way to vote?" "How much of these programs are workable & how much is possible of fulfillment under our national conditions of settlement, industry, etc." Canadians generally are conservative in their ideas. They do not want change unless it is a change for the better and they do not fall over themselves to try something new. Then too, we are fundamentally selfish and self-centered. We like the idea of personal enterprise and full freedom in the operation of our affairs whether it be factory, farm or small business. While we are probably as well converted to the golden rule of "do unto others as ye would that others

would do unto you" we, in practice rather stay to the practice of "do the other fellow before he does you." If we have misjudged we apologize sincerely. At any rate, we are still decidedly interested in No. 1 and after that we will see what we can do for the other person.

There is no question but what a change is coming. Everyone agrees that a change must come. Too much of the profit of labor and industry in the past has gone into the coffers of a few and made rich people of a very few, while the majority have continued in slavery. We expect criticism on that statement, and yet we believe that in its final analysis it is the truth. We cannot forget the relief, the bread lines, the disgrace that came to far too many self-respecting people during the years of the depression. Was their condition of their own making, partly so possibly, and yet, these people, many of them had given the best years of their lives to the upbuilding of the country, to the raising of honorable families to carry on the traditions of our great and noble country. And what was their recompense. Even when food, clothing and other necessities of life were spoiling for a lack of takers, our cock-eyed and screwy financial and governmental system, made beggars of these people.

These are the things that demand and will bring a change. Thinking people will not tolerate a repetition of this and they should not be asked to. This is only one of many questions that a post-war government will have to solve. Which party or group has the solution.

CANADA'S FISCAL MIRACLE

Editorial from New York Times
Canada's Fifth Victory Loan has just raised \$1,350,000,000. This is a small amount by our own standards, but when considered in the light of the size of the Canadian economy and the magnitude of its war effort it represents an achievement of considerable importance. Canada like the United States is devoting about half of its economic efforts to the war. The budget for 1943-44 calls for the record total expenditures including aid to the United Nations and non-war spending, of \$5,500,000,000. Taxes will cover approximately 50 per cent of this amount; the balance is being raised by the sale of securities. The two victory loan drives held this fiscal year have yielded approximately \$2,660,000,000; an additional small amount will be obtained from the sale of war savings certificates. These securities have been sold to the public and buyers other than commercial banks. The fact that such relatively large amounts have been raised from the sale of securities to non-banking purchasers despite the heavy burden of taxation is a magnificent tribute to the Canadian people.

In the current fiscal year,

therefore, the Canadian Government will have only minor recourse to the banks to meet its fiscal needs, and thus only a moderate credit expansion will be required. This in turn means that the price ceiling will not be subject to the irresistible pressure which develops when a substantial wartime expansion of bank credit occurs. It is easy to understand why Canada has been able to use subsidies without the great danger inherent in such a policy in this country. A major difference is that fiscal performance here has been so much poorer. We could study Canada's fiscal policy with profit. Its amazing record, indeed, is one of the fiscal miracles of this war.

SEEING SERMONS SPEAK

(Selected)
I'd rather see a sermon
Than to hear one any day;
I'd rather one should walk with me
Than merely show the way;
The eye's a better pupil,
And more willing than the ear;
Fine counsel is confusing,
But example's always clear.
And the best of all the preach-

ers
Are the men who live their
creeds;
For to see good put in action
Is what everybody needs.
I soon can learn to do it,
If you'll let me see it done;
I can see your hands in action,
But your tongue too fast may
run.
And the lectures you deliver
My be very fine and true,
But I'd rather get my lesson
By observing what you do:
For I may misunderstand you
And the high advice you give;
But there's no misunderstanding
How you act and how you live.

ARTHUR W. HOLMES

One of the CBC Technicians who traded a home job for front-line duty overseas, Art Holmes went over in 1939, the first Canadian radio engineer to reach Britain. He travelled with the first Canadian contingent. He recorded the Battle of Britain, sitting in Regent's Park with a pack set on his back and an inferno of bombs blazing about him. Now he is back in England again for his big job, after a year at the CBC's Dixie transmitter, along a rural Ontario highway.

WEEKLY LETTER

SOIL MOISTURE AND NEXT YEAR'S CROP

What are the present prospects for next year's crop as indicated by the moisture now in the soil? The answer is 'poor' throughout this year's dry belt. Summer-fallow has only about half as much moisture in the top six feet as compared to the fall of 1942. Should next year be as dry as this one we cannot expect nearly as good yields on fallow as those of this year.

In 1942 precipitation was sufficient to wet the soil down to six feet or more on all good fallows. As the grain plant cannot use the moisture that is below six feet, these fallows could be considered as having in store all the moisture they could hold that would be available to grain. This year, few fallows in the dry belt are wet down to three feet and many of them no more than two feet. This means that we have only about half as much water carried over in fallows for next year's crop as we had in the fall of 1942. This moisture should be sufficient to bring the crop along through a dry May and into June but if we fail to get June rains we can expect the grain on fallow to burn quite early. Stubble fields contain practic-

ally no moisture but last fall as well as this fall stubble fields were quite dry.

The value of starting summer-fallows early and preventing any weed growth is likely to be very evident next year if the season is dry, as every bit of moisture taken out of the soil, by permitting plants to grow during the fallow year, is that much less for the plant to use the following year. Where there is a surplus of moisture that wets the soil deeper than six feet, such as was experienced last year, this difference may not be noticeable. It is in a dry year following a dry year that good summer-fallows show their merit.

There are a few localities viz near the foothills and in places where heavy showers were secured where conditions are better. Anyone can determine the situation on their own fields by boring a hole down to the soil moisture depth. An auger can easily be made for this purpose by lengthening a post auger with a coupling of gas pipe. It is interesting to know how much reserve moisture we have and an hour's work with an auger will tell the story.

Prior to the war, Sicily annually seeded about two million acres to durum wheat and produced around 32 million bushels.

IT'S A GOOD IDEA

It's a good idea to form a regular saving habit for future security — it's a better idea to place your savings with your own TREASURY BRANCHES. Your local branch manager will gladly show you the THREE savings plans available at all Treasury Branches. There is a plan best suited for your own needs — whether you deposit savings regularly, or whether you wish to leave funds on deposit for a specified period of time. It pays financially and in satisfaction to deposit savings with your own TREASURY BRANCHES. See your local manager soon!

YOUR TREASURY BRANCH

E. E. Jensen
Manager . . . Raymond

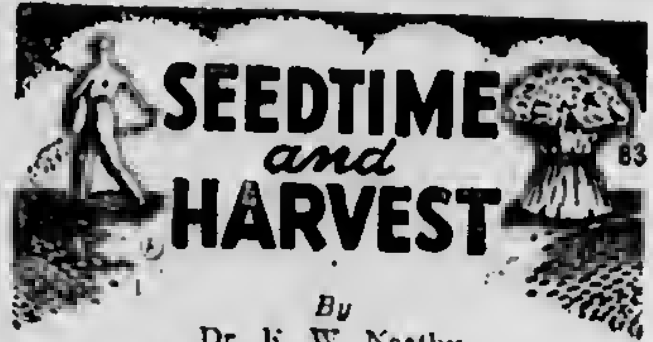

NEWS NOTES

P. D. Bennett of Lethbridge was here Tuesday this week.

Nolan McMullin, who returned this summer after nearly a year in Vancouver and who is a welder at the Sugar Factory has received his call up and is reporting for examination on December 18th.

It will soon be time for civic elections. Folks, As usual these columns are open to any who have suggestions for the improvement of our town, and we are sure that our present Council, or any Council for that matter will listen to suggestions and as far as possible carry them out.

Fire which broke out in the basement of the J. W. Evans home burned the floor joists some and scorched the curtains at one window where flames came out through the register. Prompt action on the part of the fire brigade, and Mrs. Evans' presence of mind in shutting the basement door to keep the fire from getting any air, saved a disastrous fire and much damage.

By Dr. K. W. Neatby
Director, Agricultural Department
North-West Line Elevators Association

SEED SUPPLIES

Available stocks of seed oats and barley will probably disappear rapidly this winter. There is an acute shortage in eastern Canada; and in large sections of Alberta and northwestern Saskatchewan, frost damage has been serious.

We have completed germination tests on 407 samples of oats. Of these, 142 (34.9%) germinated 60% or less. 52 samples (12.8%) germinated 30% or less.

When To Get New Seed

If one's own seed is low in percentage and vigor of germination. If it is not the best variety for the particular district. If it is mixed with seed of other varieties. Or, if it has been badly damaged in threshing.

A good uniform stand can only be obtained with good seed. A poor or patchy stand is a cordial invitation to weeds.

How To Get It

Simply call at a country elevator in which the agent is an authorized distributor of seed for your own Provincial Crop Improvement Association. He has not only seed order forms; but, also information on officially recommended varieties.

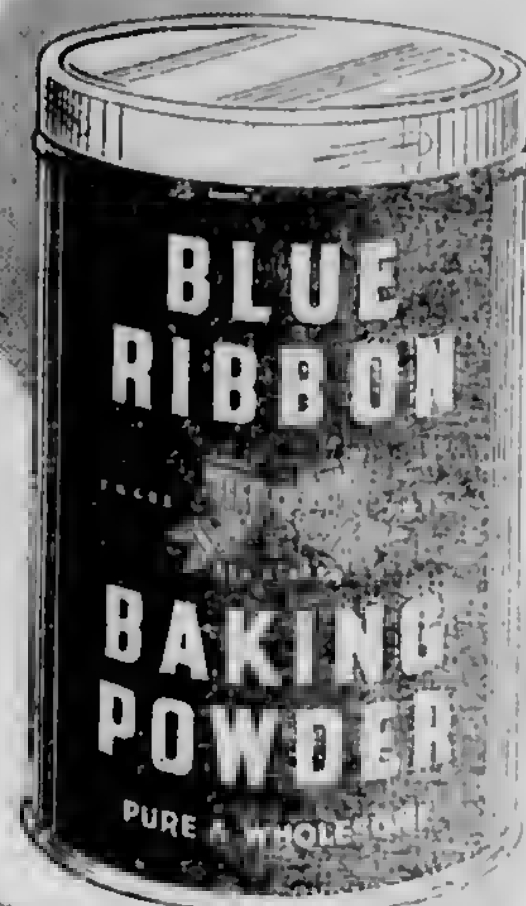

The Crop Improvement Associations are sponsored by Dominion and Provincial Governments. Universities, Seed Growers' Associations and Elevator Companies.

What To Get

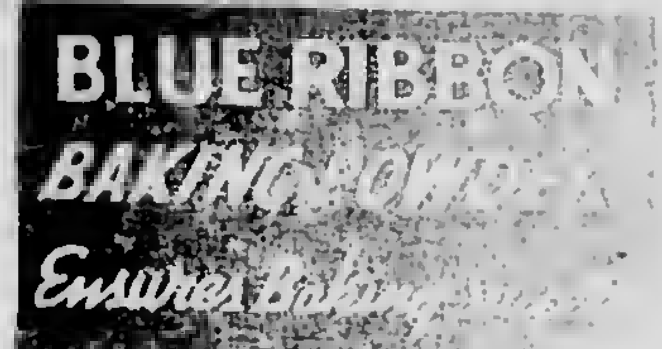

It is usually an extravagance to buy registered seed for the entire farm. Buy enough for a seed plot, the crop from which will sow the whole crop the following year. If it is necessary to replace all seed of one or more crops, it is usually wise to buy certified seed, which is cheaper, for the main crop, plus enough registered for a seed plot.

NEWS NOTES

Jas. A. Jensen, an affiliate at the Temple passed away last Sunday.

Mr. and Mrs. D. A. Bennett are planning on an extended visit with relatives and friends in Utah and other States.

S. J. Donaldson, engineer at the Sugar Factory, was away from work for a few days this week with an attack of the flu.

Mr. and Mrs. A. E. Himmick and Mrs. S. I. May were at the Temple on Wednesday with other Raymond people.

Stan Cook's daughter was taken to the Hospital this evening for an appendicitis operation.

It has been estimated that 500,000 farm workers have left Canadian farms for the armed forces, for work in armament industries or in some other occupation. This number includes farmers' sons and hired labor.

Mrs. Marie Mathin of Raymond won the big prize at the Magrath Carnival and Mike Hofer, who works for Rex Meeks won the Hudson Bay blankets. Lady Luck kind of smiled on Raymond folks, eh?

Leslie Williams, employed at the Sugar Factory, received a nasty bruise on his leg between the ankle and knee early Thursday morning when the battery cell door was pulled shut against it. It was feared at first that the bone was cracked, but an X Ray showed just a really bad bruise. We wish him a speedy recovery.

Every year horses die from gorging on grain at unprotected bins. Hungry horses batter walls where tempting leaks occur. Last spring over a dozen horses were lost in the Elmworth neighborhood alone. Bay the field granaries with couple of rounds of stout rails securely wired to sprawling posts set against the granary corners so they will not collapse. The gars are readily moved to permit the loading of grain.—Albright.

The weather is simply wonderful and we hope you like it as much as we do. Only the occasional night with even frost and two little skills of snow. This is some contrast to our winters of 35 and 40 years ago when we were usually snowed in between the middle of October and November 1st and stayed that way until the middle of April. Even California couldn't surpass this brand of weather.
